Materials in Sports Equipment

Mike Jenkins

Materials in Sports Equipment Mike Jenkins
Presenting the latest research from a distinguished panel of international contributors, Materials in Sports Equipment on the chemical structure and composition, microstructure and material processing of the various materials used in a wide range of sports equipment. The book provides insight into the overall influence of materials in sports and the significance of material processing and design. It explores how individual sports have benefited from recent improvements in material technology and analyses the way in which improvements in our understanding of biomechanics and the engineering aspects of sports equipment performance have influenced materials and design.
