Deconstruction in Context: Literature and Philosophy

Deconstruction in Context: Literature and Philosophy
"There is no rigorous and effective deconstruction without the faithful memory of philosophies and literatures, without the respectful and competent reading of texts of the past, as well as singular works of our own time. Deconstruction is also a certain thinking about tradition and context. Mark Taylor evokes this with great clarity in the course of a remarkable introduction. He reconstitutes a set of premises without which no deconstruction could have seen the light of day." – **Jacques Derrida**

"This invaluable philosophical sampler brings together many of the threads out of which deconstruction is woven. taylor's anthology does not make deconstruction easy; much more usefully, it provides a meticulous guide to the sources – and significance – of the difficulties. – **Barbara E. Johnson**

"The book will be of great value as a set of readings with authoritative explanation for all those interested in the current relations of literature and philosophy. It is the best book of its kind I know. – **J. Hillis Miller, Yale University**
