One Day on Mars (Tau Ceti Agenda #1)

Travis Taylor

One Day on Mars (Tau Ceti Agenda #1) Travis Taylor
1. This is the real thing—science fiction written by a real scientist who is also a gifted writer, following in the footsteps of Isaac Asimov, Arthur C. Clarke, Charles Sheffield, and other top-selling scientist-authors.

2. Like Travis's *Warp Speed*, this new novel has a rapid-fire story action and suspense. At the same time, cutting-edge science is deftly incorporated into the story, in the tradition of Larry Niven, Robert A. Heinlein, James P. Hogan, and other masters of real science fiction.

3. Featured book on Baen.com.

4. Award-winning cover art.

It's *24* on Mars: a nonstop futuristic thrill-ride, all in one day, through the critical events which were the breaking point for the underclass of Martian citizens and precipitated a revolution to break the Martian colonists free from the formidable Sol System government. The formerly red planet—now in danger of again becoming red, *blood* red—would never be the same, nor would the human race. It was one day that changed the course of history for the Solar System, raging from hand-to-hand combat to piloted armored mecha suits clashing to an enormous space battle, with dedicated heroes on both sides of the conflict wondering if they were doing the right thing—and if they would live to see another day. And wondering, as well, if the spark of this new war, that would eventually reach across whole star systems, would bring them peace *One Day on Mars*.

From reader reviews:

Bobby Griffin:

The e-book with title One Day on Mars (Tau Ceti Agenda #1) includes a lot of information that you can study it. You can get a lot of profit after read this book. This particular book exist new know-how the information that exist in this reserve represented the condition of the world now. That is important to yo7u to learn how the improvement of the world. This specific book will bring you with new era of the glowbal growth. You can read the e-book on your own smart phone, so you can read it anywhere you want.

Erin Harmon:

Is it anyone who having spare time subsequently spend it whole day by simply watching television programs or just laying on the bed? Do you need something totally new? This One Day on Mars (Tau Ceti Agenda #1) can be the answer, oh how comes? It's a book you know. You are so out of date, spending your time by reading in this fresh era is common not a geek activity. So what these guides have than the others?

Gladys Jackson:

That reserve can make you to feel relax. This particular book One Day on Mars (Tau Ceti Agenda #1) was colourful and of course has pictures around. As we know that book One Day on Mars (Tau Ceti Agenda #1) has many kinds or style. Start from kids until teens. For example Naruto or Investigator Conan you can read and believe that you are the character on there. So , not at all of book usually are make you bored, any it offers up you feel happy, fun and rest. Try to choose the best book for you and try to like reading this.

Steve Pinson:

As a college student exactly feel bored in order to reading. If their teacher requested them to go to the library as well as to make summary for some book, they are complained. Just minor students that has reading's soul or real their pastime. They just do what the educator want, like asked to go to the library. They go to right now there but nothing reading seriously. Any students feel that reading through is not important, boring in addition to can't see colorful images on there. Yeah, it is for being complicated. Book is very important for you. As we know that on this period of time, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. So , this One Day on Mars (Tau Ceti Agenda #1) can make you sense more interested to read.
