The darkest secrets are the hardest to unearth.

Secret McQueen, Book 6

After her last mission tested the limits of her humanity and took her out of this world, Secret's friends, determined to keep her safe from her old nemesis Alexandre Peyton, keep ushering her from one babysitter to the next.

Couch surfing would be a lot more fun if Alexandre would let up on her long enough to allow her to get in some alone time with her lovers. Including Holden, her self-appointed shadow.

As if living out of coffin isn't bad enough, Secret literally brings down the house while hunting a rogue, causing the council to exile her from New York—for her own safety, of course.

With her list of people to trust getting shorter and shorter, Secret ends up embroiled in a mystery to find a vampire warden gone AWOL and a missing artifact. Things go from bad to worse when she falls into the hands of a man who will prove that humans can be the worst monsters of them all.

Warning: Contains a cross-country journey, an unexpected family reunion, heated lovers' embraces and a hell of a lot of trouble.
