RNA Editing (Nucleic Acids and Molecular Biology)

RNA Editing (Nucleic Acids and Molecular Biology)

Goringer’s brilliant new work dedicates a chapter to each of the main types of RNA editing – the very first volume to do so. All of the sections here have been written by experts in the various research areas and a specific focus is put on the correlation between RNA structure and function, as well as on the complex cellular machineries that catalyze the different editing reactions. This leads to a "state of the art" compendium of our current knowledge on RNA editing.
