Biodiversity Communities and Climate Change Chandra Prakash Kala, Chandra Shekhar Silori

Biodiversity, Community, and Climate Change is designed to help in guiding the various principles of biodiversity conservation, effects of climate change and role of communities at various levels and landscapes. A total of 19 chapters are covered in this book and they encompass a wide range of topics including tools of biodiversity assessment ranging from conventional ecological and social survey methods to the use of latest technology such as Geographical Information System (GIS) and remote sensing.

Key Features:

- Description of biodiversity conservation with focus on the status of biodiversity from lower to higher flora and fauna
- Assessment of evaluation of impacts of allelopathic compounds on growth of native plant species
- Significant emphasis on the usefulness of geospatial techniques for monitoring urban ecosystem and biodiversity
- Specific focus on community, livelihood, and management of biodiversity
- Analysis of participatory conservation and forest management case studies to further strengthen conservation approaches
- Vital importance of community forestry, agriculture sector and biodiversity conservation in addressing the threats of climate change

Contents:

Section I: Assessment of Biodiversity

1. Fungal Biodiversity in Forests: Current Knowledge and Future Challenges
2. Spiders (Araneae) in Bhyundar Valley of the Nanda Devi Biosphere Reserve
3. Status of the Forest and Wildlife in the Binsar Wildlife Sanctuary
4. Population and Management of Medicinal Plants in Chhattisgarh
5. Application of Remote Sensing and GIS in Mapping the Plant Resources of Odisha
6. Chemical Impact of *Parthenium hysterophorus* Linn. on Some Economically Important Vegetables
7. Genetic Factors Contributing to Plants Vulnerability and Extinction
8. Use of Geospatial Techniques in Monitoring and Management of Biodiversity of Urban Ecosystems

Section II: Community, Livelihood, and Management of Biodiversity

9. From Cabbage to Conservation: Case of Community Forest Conservation by Hmong Tribe in Northern Thailand
10. Increasing Livelihood Security through Kuth Cultivation in Tons Watershed, Garhwal Himalaya
11. Case Study of Traditional Agroecosystems in Patharkot Village, Uttarakhand
12. Conservation and Livelihood Links of Joint Management of Protected Area in Phutoei National Park, Thailand
13. Sustainable Utilization and Management of Timur by Communities in Uttarakhand
14. Ethno-taxonomical Study of Medicinal Plants in the Nanda Devi Biosphere Reserve
15. Indigenous Knowledge, Use of NTFPs, and Biodiversity Conservation in Uttarakhand

Section III: Climate Change and Biodiversity Conservation

16. Climate Change and Challenges of Biodiversity Conservation
17. Role of Forests and Associated Traditional Knowledge of Local Communities in Climate Change Adaptation
18. Adaptation and Mitigation Strategies of Climate Change for Sustainable Agriculture
19. Climate Change Mitigation: Potential of Growing Tree Species of Medicinal Value

From reader reviews:

Matthew Thompson:

Why don't make it to be your habit? Right now, try to ready your time to do the important action, like looking for your favorite book and reading a publication. Beside you can solve your trouble; you can add your knowledge by the publication entitled Biodiversity Communities and Climate Change. Try to stumble through book Biodiversity Communities and Climate Change as your close friend. It means that it can for being your friend when you sense alone and beside associated with course make you smarter than ever. Yeah, it is very fortuned to suit your needs. The book makes you much more confidence because you can know every little thing by the book. So , let's make new experience as well as knowledge with this book.

James Haney:

What do you think of book? It is just for students since they are still students or the idea for all people in the world, exactly what the best subject for that? Simply you can be answered for that problem above. Every person has various personality and hobby for every other. Don't to be forced someone or something that they don't would like do that. You must know how great and also important the book Biodiversity Communities and Climate Change. All type of book can you see on many resources. You can look for the internet methods or other social media.

Lawrence Caulfield:

Often the book Biodiversity Communities and Climate Change will bring you to the new experience of reading any book. The author style to spell out the idea is very unique. When you try to find new book to read, this book very ideal to you. The book Biodiversity Communities and Climate Change is much recommended to you to see. You can also get the e-book from official web site, so you can quicker to read the book.

Joseph Carter:

This Biodiversity Communities and Climate Change is completely new way for you who has fascination to look for some information given it relief your hunger of knowledge. Getting deeper you in it getting knowledge more you know or perhaps you who still having tiny amount of digest in reading this Biodiversity Communities and Climate Change can be the light food to suit your needs because the information inside this kind of book is easy to get simply by anyone. These books create itself in the form and that is reachable by anyone, yeah I mean in the e-book form. People who think that in book form make them feel sleepy even dizzy this e-book is the answer. So there is not any in reading a e-book especially this one. You can find actually looking for. It should be here for you. So , don't miss it! Just read this e-book type for your better life and knowledge.
