Biogas Production from Anaerobic Digestion of Food Waste: Food Waste Management Ali Akhter Attari, Muhammad Mehtab Attari, Muhammad Tanveer Ahmed Ranjah
Waste management problem has raised a huge attention from many authorities. Besides that, non-renewable energy depletion caused awareness to the society on curbing the issue. Due to these current issues, biogas production from solid waste was introduced. In this work the method to produce the biogas was anaerobic digestion. It is a digestion process of organic wastes without the presence of oxygen. A lab scale anaerobic digester for batch mode was built. Methane production from solid waste specifically food waste (green waste, kitchen waste etc.) was done. The digestion process was done by the aid of inoculum which was cow dung as the amount of micro-organisms is high. A 350 liters plastic container of height 90 cm and diameter 70 cm was used as a bio-digester and biogas was collected in tyre tubes. Methane tank was filled up to 70% of volume by organic wastes. Methane production was monitored daily and in detail on weekly basis. It was found that using a mixture of cow dung and food waste retention period was 21 days. Gas started to produce on 7th day. Amount of biogas obtained was 136 dm3. This biogas digester may be used domestically as well as for the demonstrative purposes.

From reader reviews:

Joseph Chandler:

Biogas Production from Anaerobic Digestion of Food Waste: Food Waste Management can be one of your beginning books that are good idea. We all recommend that straight away because this book has good vocabulary that will increase your knowledge in vocabulary, easy to understand, bit entertaining but nevertheless delivering the information. The article writer giving his/her effort to get every word into enjoyment arrangement in writing Biogas Production from Anaerobic Digestion of Food Waste: Food Waste Management but doesn't forget the main place, giving the reader the hottest and based confirm resource facts that maybe you can be considered one of it. This great information can drawn you into fresh stage of crucial thinking.

Walter Berry:

Reading a book for being new life style in this yr; every people loves to go through a book. When you examine a book you can get a large amount of benefit. When you read publications, you can improve your knowledge, because book has a lot of information on it. The information that you will get depend on what sorts of book that you have read. If you need to get information about your review, you can read education books, but if you act like you want to entertain yourself look for a fiction books, this sort of us novel, comics, along with soon. The Biogas Production from Anaerobic Digestion of Food Waste: Food Waste Management provide you with new experience in looking at a book.

Jack Williams:

This Biogas Production from Anaerobic Digestion of Food Waste: Food Waste Management is fresh way for you who has curiosity to look for some information mainly because it relief your hunger info. Getting deeper you upon it getting knowledge more you know or perhaps you who still having little digest in reading this Biogas Production from Anaerobic Digestion of Food Waste: Food Waste Management can be the light food to suit your needs because the information inside that book is easy to get through anyone. These books build itself in the form that is certainly reachable by anyone, yep I mean in the e-book contact form. People who think that in guide form make them feel drowsy even dizzy this guide is the answer. So there is no in reading a publication especially this one. You can find actually looking for. It should be here for you actually. So , don't miss this! Just read this e-book kind for your better life in addition to knowledge.

Patrick Oneil:

Do you like reading a publication? Confuse to looking for your best book? Or your book had been rare? Why so many problem for the book? But any people feel that they enjoy for reading. Some people likes reading through, not only science book and also novel and Biogas Production from Anaerobic Digestion of Food Waste: Food Waste Management or even others sources were given expertise for you. After you know how

the truly amazing a book, you feel want to read more and more. Science book was created for teacher or even students especially. Those ebooks are helping them to put their knowledge. In some other case, beside science publication, any other book likes Biogas Production from Anaerobic Digestion of Food Waste: Food Waste Management to make your spare time a lot more colorful. Many types of book like this.
