In the modern world, we are told to have a safe home, have a good wife and just work enough so you can pay your bills and some conveniences. We are not happy with that, but we are not unhappy, because all people do it that way. It is common sense. Lets be honest, that is not the way we used to exist, everybody exists to strive for greater things. Everybody have wishes and dreams, but we think, that we can't do that, that this is too hard for us, because we are told, we are just small people with no chance to ever play at higher levels. Let me tell you something: THIS IS WRONG. YOU HAVE THE EXACT SAME POSSIBILITIES as every other really successful man, inventor, billionaire, sportsmen and whatever. In this book I present you some of the most inspiring quotes and sayings by really successful people about work ethic and hard work. After spending a lot of time studying those people I realized, that they are all just humans like you and me. They failed, they struggled... but they believed and took massive action. With this said, you can reach everything and I mean everything by taking enough amounts of action. - It helps you in every part of your life - "No matter if you want to be more social or to learn a new skill or play an instrument or to create a passive income stream in two months... with massive action you will reach this goals 100 % of the time.!
