Financing Economic Development in the 21st Century Sammis B. White, Zenia Z. Kotval

The fully revised new edition of this textbook presents a well-balanced set of economic development financing tools and techniques focused on our current times of economic austerity. While traditional public sector techniques are evaluated and refocused, this volume emphasizes the role of the private sector and the increasing need to bring together different techniques and sources to create a workable financial development package. The chapters address critical assessments of various methods as well as practical advice on how to implement these techniques. New chapters on entrepreneurship, the changing nature of the community banking system, and the increasing need for partnerships provides critical insights into the ever-evolving practice of economic development finance.
