The Vietnam War 1956-1975 (Essential Histories series Book 38) Dr Andrew Wiest
The Vietnam War was arguably the most important event, or series of events, of the American Century. America entered the brutal conflict certain of its Cold War doctrines and certain of its moral mission to save the world from the advance of communism. As this book explains, however, the war was not at all what the United States expected.

Outnumbered and outgunned the North Vietnamese and Viet Cong forces resorted to a guerrilla war based on the theories of Mao Zedong of China. This was war reduced to its most basic level - find the enemy and kill him.

The Osprey Guide To... series is a reworking of the popular Essential Histories series, now available as non-illustrated eBooks at a fantastic low price.

The maps and text remain the same, giving a strong historical overview of some of the most important conflicts and theatres of war from the ancient world through to modern times.
