Genealogy and Literature

Genealogy and Literature

Genealogy and Literature was first published in 1995. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions.

Traditionalists insist that literature transcends culture. Others counter that it is subversive by nature. By challenging both claims, Genealogy and Literature reveals the importance of literature for understanding dominant and often violent power/knowledge relations within a given society.

The authors explore the ways in which literature functions as a cultural practice, the links between death and literature as a field of discourse, and the possibilities of dismantling modes of bodily regulation. Through wide-ranging investigations of writing from England, France, Nigeria, Peru, Japan, and the United States, they reinvigorate the study of literature as a means of understanding the complexities of everyday experience.
