Photographing Roaring Fork Motor Nature Trail (Photographing the Smokies) (Volume 2) Bryan K Nowak
I have been visiting the Smokies regularly for 35 years and believe it or not I am still finding new treasures each time I go. Every season has its own unique beauty and discoveries to behold. Every animal species, log structure, valley scene and delicate flower has an untold number of photographic possibilities. Even the changing light from dawn through dust offers an ever changing opportunity to behold and capture. Clouds can set either an ominous or peaceful tone to your image. And whether leaves are green, gold, red or brown, each color helps tell the story of life, death and rebirth in the mountains. This book is not a technical how-to book nor is it a journal of historical facts, but instead it is intended to help you see what I see as you explore the 11-mile drive down Cherokee Orchard Road and Roaring Fork Motor Nature Trail. So, whether you are capturing the moment with a point-and-shoot camera, cell phone, iPad or DSLR, this book is for you. Hopefully it will encourage you to compose images from a new perspective, stop at a few more locations, get outside of your car and walk, and take away photos that you'll treasure for many years to come.
