"A Bluestocking Guide: World War II" is designed to reinforce and enhance a student's understanding of the subject matter presented in the primer "World War II: The Rest of the Story and How It Affects You Today" an Uncle Eric book by Richard J. Maybury.

Comprehension Questions are given for each chapter and may include Definition, True/False, and/or Short Answer/Fill-in questions. Answers are located in the back of the study guide. (Note: student answers to some questions/exercises do not always have definitive answers, in which case the notation "answers will vary" will appear.) Application Exercises are also given. Generally, these ask the student to apply the knowledge he/she learned from a given chapter to "real world" situations so that the student may personalize the information and better retain and apply the knowledge gained from the primer. Application Exercises typically include Discussion, Essay, and Research assignments. A comprehensive final exam is also included.

In addition to assisting the student in the retention of the subject matter, the study guide will serve as documentation of course completion.

Timeframe for Study:

Bluestocking Guides are organized to allow the instructor flexibility in designing the ideal course of study for the student. Therefore, there is no "right" or "wrong" timeframe for covering the material; the instructor should tailor the study of the primer and study guide to the student's unique school schedule, learning style and age. For example, younger students might only complete comprehension exercises in the study guide, whereas older students may complete additional application exercises and suggestions for further reading/study.

Ideally, the student should read the chapter from the primer and then immediately answer the corresponding questions in the study guide. For Essay and Research assignments, a project may require several days or weeks to complete. It is best that the instructor preview these assignments to select those most appropriate for the student and the timeframe available.

An easy-to-apply rule of thumb for determining length of study is to divide the number of chapters in a primer by the number of weeks the instructor plans to study the subject/book. Some instructors may choose to complete the primer in a few short weeks, in which case multiple chapters may need to be covered for each lesson period. Others may cover the primer over the course of a semester, in which case only one or two chapters per week will need to be assigned. (Note: Chapter lengths vary, so sometimes a student may easily be able to read more than one chapter per lesson.) The key is to move quickly enough so that the student is engaged with learning and also able to absorb all concepts fully. The student's performance on end-of-chapter Questions and Assignments from the study guide should be a good indication of this.

This guide is 8-1/2" x 11" in size.

Description of the primer, "World War II: The Rest of the Story and How It Affects You Today":

Mr. Maybury presents an idea-based explanation of the Second World War. He focuses on events in the Second World War and how our misunderstanding of this war led to America's subsequent wars, including the Korean and Vietnam Wars, the Iraq-Kuwait War, and the war on terrorism that began September 11, 2001. "World War II" is part two of a two-part series on the world wars. For part one, check out "World War I: The Rest of the Story and How It Affects You Today."

The primer, "World War II" is recommended for ages 14+ for courses in World History, U.S. History, International Relations, Economics, and Government.
