Frontiers in Clinical Drug Research - CNS and Neurological Disorders: Volume 2

Frontiers in Clinical Drug Research - CNS and Neurological Disorders: Volume 2
"Frontiers in Clinical Drug Research - CNS and Neurological Disorders" is an ebook series that brings updated reviews to readers interested in advances in the development of pharmaceutical agents for the treatment of central nervous system (CNS) and other nerve disorders. The scope of the ebook series covers a range of topics including the medicinal chemistry, pharmacology, molecular biology and biochemistry of contemporary molecular targets involved in neurological and CNS disorders. Reviews presented in the series are mainly focused on clinical and therapeutic aspects of novel drugs intended for these targets. Frontiers in Clinical Drug Research - CNS and Neurological Disorders is a valuable resource for pharmaceutical scientists and postgraduate students seeking updated and critical information for developing clinical trials and devising research plans in the field of neurology.
The second volume of this series features 8 chapters that cover a variety of topics including:
-treatment of multiple sclerosis and schizophrenia
-neurochemistry of tremors
-relationship between GABA and Alzheimer’s disease therapy
-relationship between neurological diseases and cancer
-research on angiogenesis-related blindness
