The Dark Son

Edward McAllister

The Dark Son Edward McAllister
For over forty years, Western governments have hidden the greatest secret of all. The billions of pounds used for nuclear weaponry has been a cover up. A weapon exists that is so powerful it could destroy the world, but now, the man who made it must use it to save the world he loathes.The Yellowstone National Park is a giant caldera that is about to explode and throw two hundred and forty miles of debris into the atmosphere. If this happens, only seven percent of the world's population will survive the nuclear winter. Peter Reilly is a troubled individual who, as a child was abused by his father, and when it became apparent he had a mind unlike any other, he was abused by those guardians who should have protected him. The UK Government will stop at nothing to prevent his weapon falling into the hands of the Americans, even if it means destroying the world. Now it is a race against time across the frozen wastes of Yellowstone. Who will ultimately prevail?
