The Practice of Criticism

D. H. Rawlinson

The Practice of Criticism D. H. Rawlinson
Many people associate 'practical criticism' with a short-sighted brand of literary analysis which kills a student's interest in literature by drilling him to concentrate narrowly on verbal detail. Handled properly, however, practical criticism can play a vital part in a literature course, especially in the crucial stages in the last years at schools or first university year when many students are coming to literature seriously for the first time. This 1968 book is a useful introduction to practical criticism for students. It offers an impressive range of closely analysed passages and exercises, in prose and verse. Mr Rawlinson considers the problems of the beginner, and discussed the mistakes an misconceptions that sometimes spoil practical criticism courses. In his general discussion of topics such as rhythm, tone and imagery, the author is careful not to be too abstract; throughout the book precept is reinforced by example, theory by practice.
