Language and the African American Child

Lisa J. Green

Language and the African American Child Lisa J. Green
How do children acquire African American English? How do they develop the specific language patterns of their communities? Drawing on spontaneous speech samples and data from structured elicitation tasks, this book explains the developmental trends in the children's language. It examines topics such as the development of tense/aspect marking, negation and question formation, and addresses the link between intonational patterns and meaning. Lisa Green shows the impact that community input has on children's development of variation in the production of certain constructions such as possessive -s, third person singular verbal -s, and forms of copula and auxiliary be. She discusses the implications that the linguistic description has for practical applications, such as developing instructional materials for children in the early stages of their education.

Bradley Roberts:

As a pupil exactly feel bored to be able to reading. If their teacher requested them to go to the library or even make summary for some e-book, they are complained. Just very little students that has reading's heart or real their pastime. They just do what the educator want, like asked to go to the library. They go to presently there but nothing reading very seriously. Any students feel that reading through is not important, boring and also can't see colorful pics on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this era, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore this Language and the African American Child can make you really feel more interested to read.
