Caribbean Geography: A Scholarly Bibliography

Thomas A. Rumney

Caribbean Geography: A Scholarly Bibliography Thomas A. Rumney
The islands and seascapes gracing the Caribbean Sea have long been areas of interest and research for geographers and other scholars from around the world. The lands and waters of the Caribbean region have stimulated an extensive body of research and writing across the many fields of geography. This book collects, organizes, and presents as many of these scholarly publications as possible to aid in the teaching, study, and further scholarship of the geography of this area.

Chapters are organized into the following categories: general works, cultural and social geography, economic geography, historical geography, physical geography, political geography, and urban geography. The types of publications noted include atlases, books, book chapters, articles, master's theses, and doctoral dissertations. Entries in each chapter are arranged alphabetically by author's last name. Where there is more than one publication per author, the earliest is listed first, and the rest are listed chronologically after the first entry. This volume is a convenient and useful collection of existing references on the geography of the Caribbean region that can assist teachers and students in both the study and research of the area.

Beverly Barber:

Don't be worry for anyone who is afraid that this book will probably filled the space in your house, you might have it in e-book means, more simple and reachable. This kind of Caribbean Geography: A Scholarly Bibliography can give you a lot of pals because by you investigating this one book you have matter that they don't and make a person more like an interesting person. This book can be one of one step for you to get success. This e-book offer you information that maybe your friend doesn't understand, by knowing more than some other make you to be great men and women. So , why hesitate? Let's have Caribbean Geography: A Scholarly Bibliography.

Robert Eslinger:

As a pupil exactly feel bored to help reading. If their teacher asked them to go to the library as well as to make summary for some reserve, they are complained. Just little students that has reading's heart and soul or real their hobby. They just do what the educator want, like asked to the library. They go to generally there but nothing reading very seriously. Any students feel that examining is not important, boring in addition to can't see colorful pics on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore this Caribbean Geography: A Scholarly Bibliography can make you really feel more interested to read.
