Garden Of Choices: Wisdom, Knowledge & Understanding VS DECEPTION (Volume 2)

H E Lewis

Garden Of Choices: Wisdom, Knowledge & Understanding VS DECEPTION (Volume 2) H E Lewis Your mind is a garden – be careful what you plant Biological life is about choices and you need wisdom and knowledge to know how to choose well This is not a religious book but a review of the history and beginning of mankind upon the earth and what has changed from then to now and also what has remain the same. You will find Godly wisdom, knowledge, and principles in plain and ordinary language. I also hope it will bring you a clear understanding of the makeup of mankind, which is lacking in today's society. Garden of Choices can be called an interpretation of the relationship between the Creator/God and His Creation called MAN. In order for us as human beings to understand our nature and why individuals in today's society behave in the way that they do, we need to look back at the beginning of mankind. I believe that it is the only way to understand why we as a society are at the place that we find ourselves right now and begin to look for hope to find the answers to our problems. The principles in this book came from our God and Creator's History, the Bible, and His relationship with His creation. Our Creator had a desire to commune with a being that had a soul. The inventor (Creator) of the earth and everything in it chose to create man. He wanted a being that would be able to make the choice to live with Him and enter into eternal life and become a Family of God. God's desire in today's world is the same and has not changed even though many believe that the History of God, the Bible, is antiquated. Mankind faces many temptations today that can turn us away form our true purpose in life. How do we make choices? We make choices with the thoughts that appear in our minds. What is planted in your mind will grow. Thoughts are developed through personal relationships (influences), our surroundings, and the human imagination. So your mind is like a garden. Thoughts are planted in your mind and you cultivate or water those thoughts in your every day life experiences and people that surround you. There are many voices that you hear and thoughts are developed and you choose which thoughts you will accept and choose which you will ignore. The choices you accept grow and the choices you refuse or ignore die.
