Business Intelligence for Telecommunications (Informa Telecoms & Media)

Deepak Pareek

Business Intelligence for Telecommunications (Informa Telecoms & Media) Deepak Pareek
Bringing together market research reports, business analyst briefings, and technology references into one comprehensive volume, **Business Intelligence for Telecommunications** identifies those advances in both methods and technology that are being employed to inform decision-making and give companies an edge in the rapidly growing and highly competitive telecommunications industry.

The author provides clear explanations without technical jargon, followed by in-depth descriptions regarding both the collection and use of information. He defines the recognized stages of business intelligence, examines issues arising from the emergence of customer-centric business models, and identifies areas that are likely to require research in the near future.
